Our **SERVICES**

1

Provider of **Special Export & Import Container** Transportation Services

2

Provider of **non-container general cargo** transportation services

3

Provider of Transportation for **Overweight and over dimension cargo**

4

Provider for **multimodal transport equipment** to remote areas of the country

5

Provider of Rental **trucking unit** Services throughout the country

Strategic **STEPS & PLANS**

1

Introduction

We realize that the best asset for a modern transportation company is human resources who are reliable, agile and professional.

2

Problem

Having a network throughout the country, including in remote areas, we always want to provide the best service with all the difficulties that exist in Indonesia

3

Analysis

We are determined to become one of the largest logistics & transportation companies that will continue to play a major role in economic movements in Indonesia

4

Problem Solving

Continue to innovate to develop a more competitive transportation network, as well as create systematic and inexpensive operational processes

5

Solution

We will continue to develop our business by opening new branches in several big cities in Indonesia, including developing businesses related to logistics activities such as warehousing, etc
